

SDK VERSION >= 6.4.0 ONLY:

Please be sure to add the *orientation* and *screenSize* configChanges flags for com.applovin.adview.AppLovinInterstitialActivity in your AndroidManifest.xml file. This will result in you achieving higher CPMS!

```
<activity android:name="com.applovin.adview.AppLovinInterstitialActivity"  
          android:configChanges="orientation|screenSize"/>
```
